

## TAPIO Cut Off sample cutter

The TAPIO Cutter represents the truly user friendly and inexpensive sample cutter in the industry. Users have found the Tapio Sample Cutter to provide a well functioning and simple means of cutting and preparing samples not only for the Tapio Analyzers, but for all kinds of paper testing equipment.

The TAPIO CutOff features and benefits are:

- Makes a uniformly tight and straight reel of paper and board.
- Precisely, without wrinkling, cuts the sample to the required width.
- Is able to use wide and uneven samples.
- Is easy to set up and use.
- Accepts a full range of paper types and weights
